Mark Feher | Software Engineer

(917) 497-2035 | fehermark88@gmail.com | linkedin.com/in/markfeher8/ | github.com/kezdetphia | Portfolio.com

TECHNICAL SKILLS
Languages & Frameworks: HTML,HTML5, CSS, JavaScript ,Python ,React JS, Express.js, Django, Node JS, JQuery,Node.js. ,Bootstrap,
Management & Deployment: Git, Github, Heroku, Netlify, Command Line
Databases: SQL, PostgresQL, MySQL, MongoDB,
Methodologies: Object Oriented Programming, MERN, Test-Driven Deployment, Responsive Design, Wireframing, REST-API, JSON

PROJECTS
ChatMe | Solo Project | Project Role: Full-Stack Web Developer | 2 week sprint |MERN
- Built a real-time chat application using the MERN stack (MongoDB, Express, React, Node.js).
- Implemented WebSocket-based messaging for instant communication between users.
- Secured user interactions with JWT authentication and integrated MongoDB for data storage.
- Styled with Tailwind CSS for a modern and user-friendly interface.
- Successfully deployed on a cloud platform, ensuring widespread accessibility.

Laptop Tracker App | Team Project | Project Role: Full-Stack Web Developer | 1 week sprint | MERN
- Developed a laptop collector single-page application in a collaborative team environment.
- Implemented front-end using React, back-end with Node.js and Express, and MongoDB for the database.
- Created a RESTful API for seamless data communication between client and server.
- Enabled users to create, edit, and delete laptops, providing a seamless user experience.
- Leveraged Materialize CSS for visually appealing and intuitive design.
- Deployed the application to Heroku, making it accessible to a wide audience.

Football-Fullstack | Solo Project
Full-Stack Web Developer | 1 week sprint |JavaScript, Express
- Users can customize their team by editing player attributes like skill level and name.
- Styled the front-end with Bootstrap and used JavaScript EJS template.
- Implemented Express.js as the backend server to build and deploy RESTful APIs.
- Utilized MongoDB to store player data and successfully deployed the application on Heroku.

EXPERIENCE
Assistant Sales Manager. Virgin Active **|** London, UK   2020-2021
- Tested and applied lead generation techniques, demonstrating strong data analytics capabilities
- Achieved 15% higher lead generation by data-driven strategies and A/B testing.
- Boosted customer satisfaction by 12% with personalized engagement approaches.
- Delivered 9% sales growth, meeting targets via effective team management.

Real Estate Agent, Dexters **|** London, UK   2017-2020
- Contributed to a substantial 17% revenue growth within the letting division, demonstrating a data-driven approach and ability to analyze metrics for achieving positive outcomes.
- Generated over 10 sales in the first month and achieved an 85% success rate in negotiating property sales
- Reduced administrative inefficiencies by 10% through better organizing workflow and streamlining the online process, showing an aptitude for process optimization.

Assistant Retail Sales Manager, O2 Telefonica | London, UK   2015-2017
- Spearheaded a 20% sales increase within a quarter through efficient performance management strategies.
- Achieved a minimum of 120% of KPI targets for over 12 consecutive months.
- As an Apple brand representative, I ensured outstanding service and sales by staying updated on the latest technologies and conducting regular team meetings.
